Performing artists and major concert halls around the world select Yamaha grand pianos for their impeccable tone, playability and elegance. These fine instruments are ideal for:

- Auditoriums and recital halls
- Cathedrals and sanctuaries
- Teaching studios
- Recording studios

Benefits include:

- 10-year warranty
- Nine sizes from 5' to 9'
- Professional performance and sound
- Yamaha reputation for excellence

Yamaha acoustic upright and console pianos offer responsive touch and beautiful tone that make them suitable for teaching and performing. Their quality, durability and reliability ensure a long, productive life in:

- Music schools
- Chorus rooms
- Dance studios
- Practice rooms

Benefits include:

- 10-year warranty
- Wide assortment of finishes and styles
- Compact size for use in small rooms

The Disklavier is an acoustic piano with special abilities: recording and reproducing every note and pedal movement precisely – making it ideal for teaching and performing entire concerts on its own (not just piano parts) – making it perfect for entertainment. Consider it for:

- Lobbies
- Senior centers
- Recording studios
- Theaters
- Universities

Benefits include:

- DisklavierRadio – streaming data keeps it playing 24/7
- Records in sync with video
- Moving keys and pedals (player-piano-style)

Delivering the genuine touch and tone of a 9' concert grand in less than 4' of space, this hybrid piano is made for serious musicians in:

- Conservatories
- Musical theater
- Ballet studios
- Auditoriums

Benefits include:

- No tuning required
- Authentic 9' grand sound
- Plugs directly into a sound system for premium audio quality
- Genuine grand piano action, revolutionary sound technologies

Stylish and ultra-modern, this line is beautifully unique and uniquely beautiful. It sounds and feels exceptional, and certain models can play by themselves. MODUS makes a bold statement in:

- Lobbies
- Recital rooms
- Guest suites
- Showcase locations

Benefits include:

- F-Series models can be customized with your artwork, logos, images, etc.
- ModusRadio* provides constant entertainment

*Available on select models

Extremely versatile, with thousands of authentic instrument Voices, the Clavinova can serve as a piano or an entire orchestra, making it an optimal solution for:

- Music classrooms and labs
- Houses of worship
- Assisted living homes
- Hospital music therapy rooms

Benefits include:

- No tuning required
- Listen through headphones, speakers or both
- Hundreds of Voices and Styles for accompaniments
- Internet connectivity for downloading sheet music, Styles, etc.
- Records full performances, including vocals

The most economical option, Yamaha portable keyboards range in capabilities from simple (for beginners) to advanced (for composers and performers). They are well suited for use in:

- Youth centers
- Elementary schools
- Children's worship ministries
- High school theaters

Benefits include:

- Light and portable for mobile classrooms, off-site recitals
- Run on electricity or batteries
- Headphone jacks and stereo speakers provide flexibility in classroom and performance applications

This expandable music lab system connects multiple digital instruments including pianos, portable keyboards, drums, Yamaha Silent Strings, and Silent Brass for ultimate classroom control. LC3 is ideal in:

- Sound/music lab classrooms
- General music study
- Group music lessons at retirement communities

Benefits include:

- Teacher can mute or enable specific players and create mini-ensembles
- System comes configured for eight students and a teacher; expands up to 48 students
- Headphones with mics, cables, and more included
